

Bellevue Rock Club

Meeting Minutes

April 2, 2013 7:00—9:30 p.m.

Old Business

- Virginia Hamilton is recovering from her recent illness. Get well soon, Virginia!
- Bruce Himko purchased the fluorescent light system from UV Systems. Total cost: \$1661.55. He has asked East KingCo's Vance Morrison to put together a timer system to run the lights. A demo was given of the lights and an old fluorescent collection that the club purchased some time ago.
- BruceH reported on the Kalama trip.

New Business

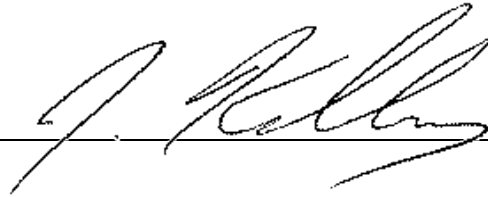

- Dave Scott bought a nice light box on Craigslist for \$100 to show off slabs.
- Show Report
 - Our long-time food vendor cannot do our October show this year. Does anyone have suggestions? We brainstormed food trucks and other options, but there was no consensus.

Program

- Bragging Rocks included many finds from the recent trip to Kalama.
- Silent Auction
- We watched two more videos of talks from last summer's "Celebration of Agates" Seminar held in Minnetonka, Minnesota:
 - "A Celebration of Agate" by Jack Hobart, and
 - "The Other Lake Superior Agates" by John Marshall

Approval:

Bruce Kelley, Secretary
